

**Commission of Inquiry into the Diaphragm Wall and Platform Slab Construction  
Works at the Hung Hom Station Extension under the Shatin to Central Link Project**

---

**THIRD WITNESS STATEMENT OF GARY CHOW**

---

I, **GARY CHOW** of 39/F Sun Hung Kai Centre, 30 Harbour Road, Hong Kong, will say as follows:

1. I refer to my first witness statement dated 2<sup>nd</sup> October 2018 (“**my First Witness Statement**”). Unless otherwise stated or the context otherwise requires, any abbreviations shall bear the same meaning as in my First Witness Statement.
2. I make this statement to supplement my First Witness Statement. Unless otherwise stated, the facts stated herein are within my personal knowledge and are true. Where the facts and matters stated herein are not within my own knowledge, they are based on the stated sources and are true to the best of my knowledge.
3. I stated in paragraph 8 of my First Witness Statement that I would attend part of the progress site walk with the MTRCL at least once a week. Having looked at my diary, I now recall that I took perhaps a week to 10 days of sick leave in early July 2015 due to my foot injury. When I returned to work, I was not able to attend any site walk for a few months, because I had difficulty walking until I recovered. Apart from this period, I did site walks during my time as the Construction Manager of Leighton for the Project and I am certain that Jason Poon of China Tech joined those site walks from time to time.

4. In paragraph 12 of my First Witness Statement, I mentioned the email that Kobe Wong of MTRCL sent and copied to my colleagues and me on 15<sup>th</sup> December 2015 (**Exhibit “GC-1”**). Having reviewed my mailbox, I now remember receiving this email at the time. Previously I had no recollection of this email, because it was only copied to me and I did not have to act on it.

Dated the 14<sup>th</sup> day of November 2018.

Signed: \_\_\_\_\_

Gary Chow
